

Robin Liu Bio

Founder and CEO of Arkansas based Solar Depot LLC. The company will start 1 GW of PERC Cell and 600 MW of solar panel by Q4 2025. It will produce 2 GW of PERC and 1 GW of HJT by Q3 of 2026, becoming the first HJT cell and module manufacturer in US. Its 3 GW cell capacity will make it one of the largest cell manufacturers in US, being the most important provider of domestic content products.

Besides Solar Depot, Robin is founder and CEO of Cabinetry 1, a kitchen cabinet wholesale business started in 2014. His prior executive positions include VP of global sourcing at Visador Holding Corp, VP of Asian Sourcing at Novo Building Products, and Asia Pacific CFO for Sprint.

Robin Liu is also Board Member of Pacific Symphony, and Board member of Bower's Museum, the largest museum in Orange County, California. He held Bachelor degree in Mechanical Engineering and MBA from University of Notre Dame.
